Light Diet 350 g | 350 g

Manufacturer	
Product number	1670
Weight	0.35kg
Length	98mm
Width	98mm
Height	127mm

Product description

After surgeries or stressful situations of the gastrointestinal tract, as well as with stomach-sensitive dogs, it is important to relieve the digestive system. Feeding should therefore be designed to be gentle on the stomach. The easiest way to do this is with the light and easily digestible Light Diet.

Light Diet contains both water-insoluble as well as water-soluble dietary fibers, which - due to their swelling capacity - can bind the gastric juice and trap toxins. The naturally contained mucilage covers the irritated gastrointestinal walls like a protective film and contribute to soothe them. In addition, Light Diet is rich in nutrients, vitamins, and carotenoids, and can help to protect the intestines from colonization by pathogenic germs. Our tried and tested herbal mixtures contain natural minerals and organic flavones and can contribute to flush out unwanted substances out of the body. In addition, the intestinal wall is supplied with energy to promote a 'positive microflora'.

Light Diet can:

relieve the digestive system
support the gastrointestinal tract during regeneration
improve the well-being
