| **Length** | 98mm |
| **Width** | 98mm |
| **Height** | 158mm |

## Product description

***Complementary feed (powder) for bitches***

For nutrient-related support of the uterine condition during the last trimester of pregnancy, birth, and postnatal recovery

**ProBreeder Birth Prep** contains many plant-based ingredients, some of which have been valued by midwives for centuries and can also make birthing easier for our bitches. **ProBreeder Birth Prep** is a valuable feed supplement for nutrition-related fertility problems and can support the condition of the uterus. Mucus-forming components can promote the development of the vaginal mucosa and thus make it easier for the puppy to enter the world.

**Composition:** wheat germs, raspberry leaves, seaweed meal, motherwort herb, linseeds, stinging nettle herb, liquorice roots, fenugreek seeds, lady`s mantle herb

**Analytical constituents:** crude protein 20.8%, crude fat 8.9%, crude fiber 12.2%, crude ash 8.6%, calcium 1.11%, phosphorus 0.57%

**Feeding recommendation:** Start adding it from the last third of gestation (i.e. from the 7th week of gestation) and continue to feed it for 10-14 days after the birth. Add to the feed daily: small breeds 2 g, medium-sized breeds 4 g, large breeds 6 g. 1 tsp. corresponds to ca. 1.5 g.
