GreenBunny KöttelFein 20 g | 20 g

Manufacturer	Green Bunny
Product number	4910
Weight	0.02kg
Length	35mm
Width	35mm
Height	58mm

Product description

Complementary feed (powder) for rabbits

For gut cleansing - for the demand-oriented, supplementary feeding in case of nutrient-related digestive disorders and intestinal problems

The tannins contained in tree bark can contribute to a superficial compaction of the intestinal mucosa with the formation of a protective layer in the intestine. This prevents increased water leakage. The intestinal contents become less fluid, and the protective layer formed makes it more difficult for bacteria, toxins, or irritants to penetrate.

A nutrition close to nature should be based on the menue of diet of wild animals. Thus, it could be observed during observations of various wildlife species that barks of trees and shrubs also form a solid food component.

The tree parts contained in **GreenBunny KöttelFein** are very rich in minerals and trace elements. They contain fiber-rich structures, but also valuable nutrients. This improves the absorption of nutrients and vital substances in the intestine. In addition, the B vitamins, trace elements and essential amino acids contained support intestinal health and thus the non-specific immune system.

Composition: brewers' yeast cell walls (MOS), willow bark, elm bark, coriander seeds

Additives/kg: Technological additives: bentonite (1m558i) 335 g. Flavouring compounds: oregano oil 4.5 g.
The total amount of bentonite must not exceed the permitted maximum level in complete feedingstuff of 20000 mg/kg of complete feedingstuff.

Analytical constituents: crude protein 10.2%, crude fat 2.0%, crude fiber 4.9%, crude ash 35.2%, ash insoluble in HCl 29.0%, calcium 0.77%, phosphorus 0.17%

Feeding recommendation: Add 1 pinch for at least 14 days 1 x daily to the feed.

The simultaneous oral use with macrolides shall be avoided.
