EquiGreen Gastric Protection Special 1.5 kg | 1,5 kg

Manufacturer	EquiGreen®
Product number	2310
Weight	1.5kg
Length	222mm
Width	241mm
Height	143mm

Product description

Complementary feed (powder) for horses

Feeding-related support of the regeneration of the gastrointestinal tract - acid buffer, mucosal protection, and toxin bonding

Many horses that receive regular medication suffer from the common side effects of stomach acidity. Discomfort, nausea, regurgitation, and loss of appetite are just a few of the common problems.

Gastric Protection Special was developed to protect the stomach lining of horses that is affected by medication and to promote the natural balance in the stomach - without any chemical additives. The selected, natural ingredients are carefully balanced to enable harmonious feeding and not to influence the effect of the medication. **Gastric Protection Special** therefore helps to soothe the stomach lining and reduce unpleasant side effects such as heartburn or digestive problems. This allows your horse to enjoy its food intake again and feel better overall.

Composition: peat, green oat, linseed expeller, sage leaves, spirulina, grape pips meal

Additives/kg: Technological additives: gum arabic (E414)

Analytical constituents: crude protein 13.0%, crude fat 2.6%, crude fiber 17.6%, crude ash 6.0%, calcium 0.54%, phosphorus 0.21%, sodium 0.08%

Feeding recommendation: Add daily ca. 10 g/100 kg body weight to the feed for at least 6 weeks. In case of increased need, the indicated feeding quantity can be doubled. 1 tbsp. corresponds to approx. ca. 7 g. The effect of medication is not influenced by the simultaneous administration of **EquiGreen Gastric Protection Special**.
