

EquiGreen Winter Herbal Mix 550 g | 550 g

Manufacturer

Product number 2320
Weight 0.6kg
Length 99mm
Width 99mm
Height 222mm

Product description

Complementary feed (powder, coarse structure) for horses

For demand-oriented supplementary feeding in winter

EquiGreen Winter Herb Mix is optimized for the biological needs of horses in the winter time. The challenges relating to the respiratory tract, digestion, and the need for vital nutrients play a particularly important role at this time of year. The special requirements for hoof and coat health, particularly in winter, were also taken into account in the development of **EquiGreen Winter Herb Mix**.

Expert tip: We recommend the additional feeding of **EquiGreen HuminoMineral** to ensure the supply of micronutrients including humic acids, which are also important for the care of joints, skin, and hooves.

Composition: linseed expeller, stinging nettle herb, sage leaves, thyme, mallow flowers blue, watercress herb, fennel seeds (ground), purple coneflower herb, field horsetail herb

Analytical constituents: crude protein 24.1%, crude fat 6.8%, crude fiber 14.1%, crude ash 12.4%, sodium 1.1%

Feeding recommendation: Add to the feed daily. **Ponies/small horses:** 20-50 g/animal. **Large horses:** 40-70 g/animal. 1 tsp = ca. 2 g / 1 tbsp = ca. 6 g.
