privet MoltMix 240 g | 240 g

Manufacturer	priVet Farming®
Product number	4875
Weight	0.24kg
Length	98mm
Width	98mm
Height	127mm

Product description

Complementary feed (powder) for poultry

For feeding according to needs before and during the moulting period

privet MoltMix consists, among other things, of high-quality ingredients that contain many of the sulfur-containing amino acids that are urgently needed for the metabolic processes during molting. The contained herbs have an additional detoxifying effect and support the regeneration of the liver. **privet MoltMix** supports in a natural way a fast moulting process and an optimal structure of the new plumage.

Expert tip: privet MoltMix is also suitable for liver support after an administration of medication. Due to the detoxifying effect, it is advantageous to feed a mineral source, such as **privet HuminoMineral Pellets** or **privet Mineral** at the same time.

Composition: linseed, brewers' grains, brewers' yeast, stinging nettle herb, birch leaves, milk thistle herb, dandelon herb, dandelon root

Analytical constituents: crude protein 23.7%, crude fat 16.4%, crude fiber 11.1%, crude ash 8.8%, sodium 0.10%, calcium 0.86%, phosphorus 0.52%, lysine 1,05%, methionine 0.37%

Feeding recommendation: 7 g to 1 kg of feed. *Tea preparation:* 3-7 g to 2 L of hot water. 1 tbsp. corresponds to approx. 5 g.
