PancreasMix 100 g | 100 g

Manufacturer	
Product number	3080
Weight	0.165kg
Length	67mm
Width	67mm
Height	119mm

Product description

Complementary feed (powder) for dogs and cats

Natural, feeding-related support for the pancreas - holistic & plant-based

A balanced digestive system is essential for the well-being and vitality of our four-legged friends. The pancreas in particular plays a central role in this. It not only regulates blood sugar levels, but also plays a key role in enzyme production for a healthy digestive system.

Our high-quality **PancreasMix** has been specially developed for dogs and cats to support the natural function of the pancreas. The purely plant-based recipe combines digestion-stimulating, antioxidant and liver-supporting ingredients to create an effective composition. The plant substances contained are traditionally known for their metabolism-stimulating properties and naturally promote enzyme activity, balance in the gastrointestinal tract, and the digestive system's ability to regenerate healthy digestion.

Whether as an accompanying measure for existing burdens or for preventive support - **PankreasMix** is ideal for animals with a sensitive digestive system that are prone to digestive disorders, or as a supplement to intestinal cleansing and metabolic cures.

Composition: fennel seeds (ground), linseed expeller, olive leaves, artichoke leaves, dandelion root (ground), milk

thistle herb, papaya seeds, turmeric roots (ground), moringa leaves (ground), oregano

Analytical constituents: crude protein 19.5%, crude fat 5.8%, crude fiber 16.5%, crude ash 9.3%

Feeding recommendation: Add 0.4 g/5 kg body weight to the feed daily over a period of at least 6-8 weeks. 1 quarter tsp corresponds to ca. 0.4 g / 1 tsp = ca. 1.6 g. To improve the feed utilization of fat-soluble plant substances, it is recommended to combine the feed quantity with oil. Also suitable as a cure 2-3 x per year.
