EquiGreen Natural Power without Oats 20 kg | 20 kg

Manufacturer	EquiGreen®
Product number	198
Weight	20kg
Length	430mm
Width	160mm
Height	800mm

Product description

Complementary feed (muesli flakes) for horses

The natural power muesli without oats

EquiGreen Natural Power meets the high demands that we at ***cd****Vet* place on a concentrated feed for the sensitive herbivore horse:

- Easy digestibility directly in the small intestine thanks to high-quality ingredients such as hydrothermally digested grain and the absence of waste products and fillers
- Fast, readily available energy without disturbing the sensitive colon flora, which is designed for roughage
- Lower amounts of concentrated feed with better digestibility and energy supply, which, in combination with sufficient good roughage, is easy on the sensitive, small horse's stomach and the entire digestive system, which is designed for feed rich in crude fiber
- Free of synthetic vitamins, inorganic bound and artificially produced organic minerals and trace elements
- Micronutrient supply exclusively via high-quality natural raw materials
- No unnecessary strain on the sensitive detoxification organs of the steppe animal horse due to synthetic additives that are difficult to metabolize
- Supply of vital minerals, trace elements, vitamins, and other vital substances from natural sources on which the entire organism is designed
- High-quality plant and herbal supplements compensate for the lack of herbs on today's pastures
- Improved health and increased performance

Composition: barley flakes, maize flakes, wheat flakes (cereal flakes hydrothermally digested), linseed, alfalfa, molasses, rapeseed oil, eucalyptus leaves, stinging nettle herb, fruit vinegar, fennel, marshmallow, coriander, thyme, chamomile, aniseed, ribwort plantain leaves, birch leaves, cumin, sage, spruce needles, fenugreek seeds, garlic, elderberry juice, red beet juice, dextrose, fermented cereals (liquid), acerola cherry pulp, gingko leaves, artichoke leaves, purple coneflower herb, St. John's wort

Additives/kg: Technological additives: lactic acid (1a270) 1.2 mg.
The simultaneous use of different or ganic acids or their salts is contraindi cated where one or more of them is used at or near the maximum permitted content.

Analytical constituents: crude protein 9.7%, crude fat 4.7%, crude fiber 4.7%, crude ash 2.2%, calcium 0.10%, phosphorus 0.32%, magnesium 0.11%, sodium 0.03%

Feeding recommendation: Feed daily as sole concentrate. ***Small horses*** *(up to ca. 200 kg)**:*** 50 g/animal. ***Large horses*** *(from ca. 500 kg)**:*** 100 g/animal. ***Cold-blooded horses*** *(from ca. 1000 kg)**:*** 150 g/animal.

Store it cool and dry. Protect from direct sunlight.
