

EquiGreen Prebiotic NP 2.5 kg | 2,5 kg

Manufacturer

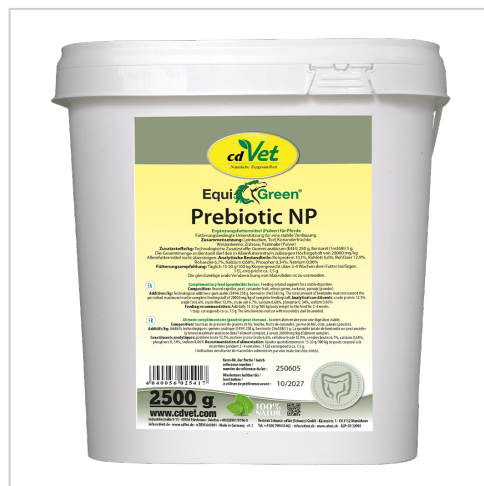

Product number 2541

Weight 2.5kg

Length 200mm

Width 200mm

Height 205mm

Product description

Complementary feed (powder) for horses

Feeding-related support for a stable digestion

The horse's microbial digestion is the basis for a healthy horse. It provides vitamins, breaks down food into essential nutrients, and cares for the intestinal mucosa. However, we are still unable to say what a healthy intestinal microbiome actually looks like. If you look at nature, horses have a wealth of secondary plant substances at their disposal that also influence healthy digestion. Prebiotic plant components form the nutritional basis for a species-rich microbiome. Essential oils can displace pathogenic germs. You will find all of this in **EquiGreen Prebiotic NP**, which supports your horse in times of stress or builds up a healthy intestinal microbiome as part of our intestinal sanitation program.

EquiGreen Prebiotic NP contains a special mineral complex that has toxin-binding capabilities. In particular, it supports the intestine in the binding power of liquids (e.g. in liquid feces). The development of a healthy intestinal flora is essential for a healthy development.

Composition: linseed expeller, peat, coriander fruit, wheat germs, rockrose, parsnip (powder)

Additives/kg: Technological additives: gum arabic (E414) 250 g, bentonite (1m558i) 5 g.

The total amount of bentonite must not exceed the permitted maximum level in complete feedingstuff of 20000 mg/kg of complete feedingstuff.

Analytical constituents: crude protein 13.1%, crude fat 6.6%, crude fiber 12.9%, crude ash 6.7%, calcium 0.68%, phosphor 0.34%, sodium 0.06%

Feeding recommendation: Add daily 15-20 g/100 kg body weight to the feed for 2-4 weeks. 1 tbsp. corresponds to ca. 7.5 g.

The simultaneous oral use with macrolides shall be avoided.
