Product description

Pectins are more than just dietary fiber. Naturally occurring in many types of fruit, these plant-based polysaccharides act as a natural gelling agent. Once in the intestines, they absorb excess moisture and can thus be a natural aid to digestive disturbances. **herbaBARF Diarrhea Stop Plus** absorbs moisture, supports the natural mucilaginous, protective barrier of the intestine, and helps to replenish the mineral balance stressed by diarrhea.

In the case of nutrition-related diarrhea, it can be used - also in combination with **herbaBARF Probiotic** - for support.
