Manufacturer	insektoVet®
Product number	660
Weight	0.009kg
Length	24mm
Width	24mm
Height	71mm

Product description

Care product for animals

Care oil for masking animal-specific scent toward fleas and other nuisances

Flea SpotOn is a high-quality, skin-caring fragrance oil based on cold-pressed, organic Egyptian black cumin oil and organic coconut oil. This care oil is supplemented with excellent essential fragrance oils that mask the pet's own odor. Since the animal is no longer perceived as an attractive host by fleas and other nuisances (ticks, mites, mosquitoes, etc.), a flea-free walk is possible.

Expert tip: FleaEx SpotOn is basically waterproof in rain and when bathing in water. However, it should be reapplied after shampooing.

Composition: organic coconut oil, organic black cumin oil, jojoba oil, neem oil, geranium oil, lavender oil, manuka oil

Application recommendation: Massage 1 drop from your wetted finger into the skin daily for 3 weeks. ***Dog:*** in both ear cones or between the shoulder blades and at the base of the tail. ***Horse:*** near the torso on the insides of the legs as well as at the base of the ear. ***Rodent:*** only 2 x per week between the shoulder blades. 1 drop corresponds to approx. 50 mg.
Once basic stabilization is achieved, 1-2 applications weekly are sufficient. In case of strong regional flea infestation, the frequency of applications can be increased individually.

Contains lavender oil, citronellol, and geraniol. May produce an allergic reaction.
