Product description

Energy is not only performance in terms of fat and carbohydrates but especially in terms of vitality. So Fit-BARF Vital consists for a significant part of seedlings of wheat, which are produced by a specially gentle process under 40°C. The seedlings of wheat are the germinating vital force from the wheat and provide the body with an enormous bio-energetic force. This is helpful for the whole immune system , constitution and of course the strengthening of the body. It strengthen, moreover, the resources of the body during higher load. Furthermore, Fit BARF Vital contains a specially high part of natural folic acid and thus it is significant for young animals or lactating female dogs .
