ArthroGreen herbal 1 kg | 1 kg

Manufacturer	ArthroGreen®
Product number	2001
Weight	1kg
Length	200mm
Width	200mm
Height	205mm

Product description

The minerals and essential oils contained in ArthroGreen herbal from purely natural sources can support the self-healing powers and improve the well-being of the horse.

Improper nutrition and lack of exercise worsen the metabolic processes in the cartilage and thus its quality. In addition, there is a general age-related reduction in the activity of the metabolism in the entire organism. These processes lead to a deterioration in the quality of the cartilage and resulting to a reduction in the burden.

ArthroGreen herbal addresses exactly this point and stimulates the connective and supporting tissue metabolism due to the high content of natural silicic acid. In addition, blood circulation is stimulated and faster regeneration is promoted. Together with herbs that support the liver and kidneys, toxins can be more easily eliminated from the body and fluid accumulations in the tissues can be promoted in their removal.

Synergistic blend of herbs
High silica content
Supports joint metabolism
