EquiGreen GutActive 1 L | 1 l

Manufacturer	EquiGreen
Product number	453
Weight	1.01kg
Length	88mm
Width	88mm
Height	230mm

Product description

For the production of EquiGreen GutActive wild plants and herbs are together fermented in a natural process. During this fermentation multiply the probiotic microorganisms and produce it so valuable for us substances for example lactic acid, antioxidants, enzymes and vitamins. Through this particular mixture of valuable lactic acid bacteria and Co.the pH value in the digestive tract can be regulated, the development of pathogenic bacteria is reduced on the natural way. This makes EquiGreen GutActive to a holistic product in which all the components complement each other and act together.

The fermented herbs in EquiGreen GutActive support the balance of intestinal flora and the entire microbiological situation.

- Milk-free and therefore very well suited for milk and milk product intolerance.

- Sugar-free and therefore suitable for diabetics. During the fermentation process to increase the lactic acid bacteria by breaking down the sugar and turn it into lactic and acetic acid. Only after the sugar is completely degraded, is completed the fermentation process.

- Contains no alcohol.

- The contained herbs are after the fermentation isn´t in the original form available and are thereby homeopathy compatible and most easily compatible.
