Product description

Environmental pollution and harmful/stressing substances surround us and our four-legged friends daily and everywhere. Be it the walk along much traveled roads, the beloved treats, which are not so natural, or maybe the use of body care and cleaning products. The list of substances we are warned about is getting longer every day, and it is almost impossible to avoid everything. A detoxification cure can also do our beloved fur noses good - whether after a necessary drug administration, vaccination, anesthesia or simply once in between.

Herbal teas have a long tradition worldwide, they have been prepared for thousands of years. It is an art to blend tea plants, so you should use proven blends. The acceptance by dogs of teas is usually excellent. They are gladly accepted both pure and as a food supplement. By preparing tea, the ingredients become highly available.
