Fit-BARF Maerl 250 g | 250 g

Manufacturer	Fit-BARF®
Product number	4134
Weight	0.25kg
Length	67mm
Width	67mm
Height	119mm

Product description

Lithothamnium calcareum is a living stone alga of red color, which turns to white when dried. As a 100% purely natural substance, it has a high content of trace elements and calcium. This makes it ideal for meeting individual calcium requirements and balancing out the surplus phosphorus that needs to be taken into account when feeding with raw meat.
