Product description

Phyto Start Safe Complete - the natural stabling mixture for pigs The stabling of piglets and the first phase of pre-fattening is a very sensitive period for the health and thus for the capacity of the performance of the animals. PhytoStart Safe Complete helps you to make the stabling phase nutritionally-related more stable and safe. PhytoStart Safe Complete contains highly concentrated essential oils of purely natural origin, which are particularly suitable to support feed intake, especially also in the case of strains on the respiratory tract. Furthermore, it also supports nutritionally-related the intestinal flora, which is particularly important in animals that are prone to digestive disorders. Nutrition-related support of the respiratory tract and intestinal flora Strengthening of the immune system Stabilization of the performance
