Product description

ArthroGreen Plus contains the proven recipe of ArthroGreen and was additionally enriched with rosehip and willow bark. This makes it particularly suitable to support the musculoskeletal system and joints in acute phases optimally in a natural way. The contained rosehip peels are characterized by their high content of vitamin C, pectins, fruit acids, and carotenoids. Vitamin C is of great importance for collagen biosynthesis and thus for the strength of bones and cartilage. Due to the selected combination with salicin contained in willow bark, ArthroGreen plus can be a natural nutrition-based support.
