Width	46mm
Height	116mm

Product description

In insektoVet Organic Coconut-Black Cumin-Oil, two classics are combined - organic black cumin oil and organic coconut oil. The essential fatty acids contained therein in combination with lauric acid and essential oils from black cumin can optimize skin metabolism and influence the body odor of the animal. In cell biological studies it could be shown that the resistance of the skin cells can be enhanced throughout the year by insektoVet Organic Coconut-Black Cumin-Oil. In particular, the barrier function of the skin cells is strengthened, which also has an important role in the natural regenerative power of the skin.

Due to the intestinal nurturing ingredients, the intestinal flora is supported in its balance, and the settlement of intestinal parasites is impeded. insektoVet Organic Coconut-Black Cumin-Oil is recommended for feeding and for the skin and coat care.
