Product description

VeaVet Paw Care with almond, sage and calendula oil protects and cares for the pads of your favorite during high strain, as it can occur especially in winter and also in summer. Due to the contained care oils, the skin is protected from these external influences via a fine protective layer on the coat and skin surface (film-forming effect). Due to its valuable essential properties, calendula oil has a positive effect on sensitive and chapped skin. Likewise, the sage oil can be used well for therapy-accompanying care.

For fun and joy in every season - VeaVet Paw Care.

Due to the rapid absorption, no residues remain on the paws, so that there is neither increased risk of injury on

smooth floors nor greasy stains on carpets, etc. remain.
