VeaVet Paw Care Spray 20 ml | 20 ml

Manufacturer	VeaVet
Product number	1120
Weight	0.02kg
Length	28mm
Width	28mm
Height	102mm

Product description

Care product for animals

For the care of brittle and cracked balls of the foot under heavy use

For fun and joy in every season - **VeaVet Paw Care Spray**.

In winter or summer! The paws of our pets must be able to withstand quite a bit. Whether fine and sharp ice particles and the road salt often used in the slippery season or hot cobblestone and asphalt paths and sandy beaches in the bathing season. For sensitive paws and pads, these extremes are a real challenge.

VeaVet Paw Care Spray with almond, sage and calendula oil protects and cares for the pads of your favorite during high strain, as it can occur especially in winter and also in summer. Due to the contained care oils, the skin is protected from these external influences via a fine protective layer on the coat and skin surface (film-forming effect). Due to its valuable essential properties, calendula oil has a positive effect on sensitive and chapped skin. Likewise, the sage oil can be used well for therapy-accompanying care. Due to the rapid absorption, no residues remain on the paws, so that there is neither increased risk of injury on smooth floors nor greasy stains on carpets, etc. remain.

Expert tip: Also suitable as a supplement **to VeaVet Paw Care**.

Composition: aqua, emulsifier, almond oil, jojoba oil, marigold oil, lavender oil, sage oil

Application recommendation: Spray onto the paws and if necessary massage/spread a little.
