Care product for animals

Probiotic care spray for stressed skin

VeaVet Probiotic Spray is a fermented product that can protect areas of skin at risk of decay and infection using probiotic (healthy) microorganisms. **VeaVet Probiotic Spray** helps displace harmful microorganisms, such as fungi and bacteria, and helps stressed skin regenerate on its own. Where healthy probiotic microorganisms dominate, harmful microorganisms are displaced.

VeaVet Probiotic Spray is produced through the natural fermentation of wild and aromatic herbs. It is non-toxic and safe if it comes into contact with sore skin.
