HustaVet Oil 100 ml | 100 ml

Manufacturer	HustaVet®
Product number	465
Weight	0.093kg
Length	46mm
Width	46mm
Height	116mm

Product description

Feed material (oil) for dogs, horses, rodents, and ornamental birds

For nutrition-related support of animals sensitive to the respiratory tract

In nature, animals also consume herbs and leaves whose ingredients are often rich in essential oils. The active ingredients contained in essential oils are particularly important for the condition of the respiratory tract, but also for digestion, and thus also have a positive influence on the body's defenses. The unique combination of beneficial plant and herbal oils makes **HustaVet Oil** the ideal basis for a feed supplement tailored to the needs of respiratory-sensitive animals.

Especially recommended:

- In the case of long-standing hypersensitivity of the respiratory tract
- For disorders of the immune system
- For feeding-related support with allergies

Expert tip: If the immune system has been overreacting for some time, the feeding should take place over a period of at least 4 weeks. **HustaVet Oil** can contribute to immune modulation in the case of respiratory disorders. Experience has shown that an improvement in the condition of the respiratory tract can be delayed, but can often be profound and support the resistance of the bronchi (or the entire respiratory tract) in the long term.

Composition: pure Egyptian black cumin oil, cold pressed

Additives/kg: Flavouring compounds: fennel oil 3.3 g, star anise oil 3.3 g, sage oil 3.3 g, thyme oil 3.3 g, cumin oil 3.3

g, lavender oil 3.3 g.

Feeding recommendation: Add to the feed 1-2 x daily if required. ***Rodents/ornamental birds:*** 1-2 drops/animal. ***Dogs:*** 4-12 drops/animal depending on body weight. ***Ponies/small horses:*** 5-10 ml/animal. ***Large horses:*** 10-15 ml/animal. 10 drops correspond to ca. 0.3 ml.

Once opened, keep refrigerated and dark, and use within 3 months.
