Product number 1630

Weight 0.425kg

Product description

Complementary feed (liquid) for dogs

Fit-BARF Light Diet - recovery for stomach and intestine

After surgeries or stressful situations of the gastrointestinal tract, as well as with stomach-sensitive dogs, it is important to relieve the digestive system. Feeding should therefore be designed to be gentle on the stomach. The easiest way to do this is with the light and easily digestible **Fit-BARF Light Diet**.

Fit-BARF Light Diet contains both water-insoluble as well as water-soluble dietary fibers, which - due to their swelling capacity - can bind the gastric juice and trap toxins. The naturally contained mucilage covers the irritated gastrointestinal walls like a protective film and contribute to soothe them. In addition, **Fit-BARF Light Diet** is rich in nutrients, vitamins, and carotenoids, and can help to protect the intestines from colonization by pathogenic germs. Our tried and tested herbal mixtures contain natural minerals and organic flavones and can contribute to flush out unwanted substances out of the body. In addition, the intestinal wall is supplied with energy to promote a 'positive microflora'.

Fit-BARF Light Diet can:

- relieve the digestive system
- support the gastrointestinal tract during regeneration
- improve the well-being

Composition: oat flakes, linseed expeller, carrot pomace, linseed, pectin, maerl, sunflower seed expeller, malt rootlets, birch leaves, stinging nettle herb, milk thistle herb, seaweed meal, dandelion herb, grape pips meal, brewers' yeast, brewers' yeast cell walls (MOS), peat, dandelion root

Additives/kg: Technological additives: clinoptilolite of sedimentary origin (1g568) 0,6 g.

Total quantity of clinoptilolite of sedimentary origin from all sources shall not exceed the maximum content of 10000 mg/kg.

Analytical constituents: crude protein 16.0%, crude fat 6.3% crude fiber 5.7%, crude ash 4.3%, calcium 0.58%

Feeding recommendation: Add 30 g/10 kg body weight to the feed daily. 1 tbsp = ca. 3 g / 1 tbsp = approx. 9 g. Mix 1 part Light Diet with 4 parts warm water and let it swell for 30 minutes. The feeding quantity given is a recommendation, as feeding requirements may vary depending on age, breed, state of health, and activity.

To avoid possible deficiencies, you should always add an easily digestible protein source (e.g. yoghurt, chicken or low-fat beef) to the light diet that is tailored to your pet. Then feed the feed in many small meals throughout the day to protect the stomach and intestines as much as possible.

Product properties

Composition	Seaweed meal, Oats, Peat, Brewer's yeast, Grape seed flour, Sunflower, Apple, Nettle, Carrot, Flax, Milk thistle, Dandelion, Birch, Algae, Malt
Phase of life	Seniors, Adults, Juniors
Special Requirements	Health, Intestines, Stomach, Internal organs, Schmatzen, Digestion, Earth / Grass
Animal categories	Dogs
Feed Profile	Feeding, Sensitiv, BARF, Diet & Light, Without additives, Vegetarian, Leisure
Product form	Powders
Product type	Care & hygiene
