Product description

Complementary feed (liquid) for dogs

Feeding-related, long-term support of liver and kidney function

DogFit is a unique combination of herbs, fruit, and vegetables. Due to the optimal composition of ingredients **DogFit** contains many vitamins, minerals, and natural plant substances that support both the condition of the digestive organs and are particularly important for the supply of detoxification organs.

The secondary plant substances contained **DogFit**, such as anthocyanins and flavonoids, can positively support the genetically existing pigmentation on the rhinarium, eyelid edges, lips, and paws, and contribute to strengthening the immune system.
