MicroMineral Special 150 g | 150 g

Manufacturer	
Product number	586
Weight	0.15kg
Length	67mm
Width	67mm
Height	89mm

Product description

MicroMineral Special is a high-quality source of nutrients with, among other things, organic Moringa is distinguished by its 90 essential nutrients, vitamins, minerals, all essential amino acids and secondary plant substances in highly concentrated form, which is why it is often referred to as a superfood, and not without reason. Our Moringa is of the highest quality - hand-harvested, gently dried and ground, in organic quality and is traded Fair Trade from Africa.

MicroMineral Special does not contain yeast and is therefore particularly suitable for animals that require a low-purine feed. The contained peat supports a healthy intestine with its humic acids and binds excess stomach acid and absorbed pollutants. Peat protects the intestinal mucosa and soothes the nerves in the intestinal tract. It has a bacteria and virus repellent effect and thus supports the immune system of our four-legged friends - more defenses for more health.

With MicroMineral Special your animal is all around supplied.

excellent source of vitamins, minerals, and trace elements
moringa supports muscle development
natural source of iron - can stimulate blood formation
gastrointestinal regulation through humic acids
cell protection through antioxidants
without yeast - especially suitable for low purine feeding
