Product description

In the usual top quality, we have here laced you a carefree all-inclusive package - free of artificial additives and synthetic vitamins.
Meat from cattle grazing ensures a balanced supply of valuable proteins. In addition, marine fish provides important omega 3 and 6 fatty acids and must therefore not be missed on any diet.
We deliberately avoided wheat and corn. Instead, we only use potatoes and oats to provide an optimal energy supply and a basic base that will accommodate even sensitive stomachs.
Together with the vitamin-rich carrots and the inulin-rich Jerusalem artichoke results in a balanced meal, which - as always with cdVet - supplemented and rounded off by herbs. So that the nutritional profile of your dog is round and coherent, cdVet focuses on the quality of the ingredients. So we use only the best products in gentle cold pressing. Therefore, it is not necessary to enrich the feed with synthetic. Pure nature - from the first to the last bite
