ArthroGreen Sport 700 g | 700 g

Manufacturer	ArthroGreen®
Product number	542
Weight	0.7kg
Length	99mm
Width	99mm
Height	222mm

Product description

ArthroGreen Sport seves to support joint metabolism and can nutrition-related contribute to the strengthening of tendons and ligaments as well as the strengthening of connective tissue.

The glycosamine glycans contained serve as important building blocks for healthy, strong articular cartilage, and are supplemented by high-quality, natural radical scavengers. In addition, the high content of minerals, trace elements, vitamins, and essential amino acids is a valuable aid in case of increased need. Those are highly bioavailable and are characterized by their pH-value as favorable counterparts in case of overacidification. In addition, the ingenious composition can have a positive influence on memory performance and learning ability, respectively.

for the support of the musculoskeletal system (the joints) in sport horses
for feeding-specific support of young horses in the growth and/or training phase
for horses that are used in sports and have an increased need for vital substances
