ZytoVet forte 150 g | 150 g

Manufacturer	
Product number	48
Weight	0.15kg
Length	67mm
Width	67mm
Height	89mm

Product description

ZytoVet forte is a feed supplement for animals, for special support of feed intake in case of problems with the immune system, autoimmune diseases, and cell metabolism. The cell is the smallest functional unit of the body. It is responsible for the metabolism, i.e. for the degradation and transformation processes of food and oxygen intake, as well as for the rebuilding of degraded or damaged cells. If this system is damaged, a wide variety of diseases and disorders occur. Only healthy, functional cells guarantee a healthy body.
