ArthroGreen Classic 70 g | 70 g

Manufacturer	ArthroGreen®
Product number	285
Weight	0.07kg
Length	67mm
Width	67mm
Height	89mm

Product description

Complementary feed (powder, capsules) for dogs and cats

For the demand-oriented feeding of dogs and cats sensitive to joints – special supply of joints, muscles, tendons with New Zealand greenshell mussel (non-defatted mussel meat)

The New Zealand greenshell mussel has a high density of useful biologically active substances such as glycosaminoglycans. This makes it a valuable raw material with many positive properties. Glycosaminoglycans belong to the group of amino sugars (simple sugars), are also called food for the joints and are a natural component of the synovia (synovial fluid) and cartilage. **ArthroGreen Classic** contains a high proportion of New Zealand greenshell mussel (non-defatted mussel meat) and glycosaminoglycans, which provide an important component for the functionality of the joint and thus promote its development.

Expert tip: For problem animals, the feeding amount can be doubled for approx. 2-6 weeks after the first week for special support. **Blood Circulation Gel** is recommended for accompanying external care. For micronutrient and mineral supply, the feeding of **MicroMineral** is additionally advisable.

Composition: New Zealand greenshell mussel (freeze-dried) 30%, grape pips meal, ginkgo leaves, devil's claw root, stinging nettle herb, field horsetail herb, sea buckthorn berries, spirulina

Analytical constituents: crude protein 31.6%, crude fat 6.2%, crude fiber 12.1%, crude ash 10.8%, calcium 1.46%, phosphorus 0.49%, sodium 0.41%

Feeding recommendation (powder): Add 1 g/10 kg body weight daily to the feed as required. 1 half tsp. corresponds to ca. 1 g.
Feeding recommendation (capsules): 4 capsules/10 kg body weight daily. Capsule filling quantity: ca. 0.3 g.
