Singulares Collagen 2 kg | 2 kg

Manufacturer	singulares
Product number	1428
Weight	1.5kg
Length	200mm
Width	200mm
Height	205mm

Product description

Collagen can strengthen joints and increase their resistance to injury via its contained protein components. By providing these cartilage-building substances, cartilage density can be increased through self-regulation and regeneration of the organism.

These ingredients can help to improve skin health. Skin own structures combine with collagen. Skin elasticity and moisture retention can be increased. Cracks and dry skin areas can be stimulated to regenerate.

can strengthen the joints via the contained protein components
cartilage density can be increased by self-regulation and regeneration of the organism
skin elasticity and moisture retention can also be increased

Additional information

PZN DE	Feed materials for animals made from 100% hydrolyzed pig collagen
PZN AT	Can strengthen the joints and increase their resistance via the protein building blocks it contains
