MastitiVet Dipp 1 L | 1 l

Manufacturer	cdVet Agrar
Product number	10170
Weight	0.95kg
Length	88mm
Width	88mm
Height	230mm

Product description

MastitiVet Dipp is a natural care product for intensive and effective support of udder and teat condition. It contains no synthetic additives and dyes. Many dyes and additives have a phototoxic effect and can irritate the udder even when exposed to sunlight. Since these are not included in MastitiVet Dipp, it is also suitable for herds that receive pasture grazing. Since it does not contain any chemical additives, overdosing is not problematic.

With intact sphincters, the natural physical hygiene barrier in the teats works. The condition of the sphincters is strengthened by the purely natural oils contained in MastitiVet Dipp. Due to the strengthened teat condition, the resistance of the sphincters is promoted and even one of the most important reasons for dipping itself is reduced: The weakened sphincter condition.
