EquiGreen Coat & Skin Vital 25 kg | 25 kg

Manufacturer	EquiGreen®
Product number	692
Weight	25kg
Length	430mm
Width	200mm
Height	800mm

Product description

EquiGreen Coat & Skin Vital is specially designed to meet the nutritional needs of horses and ponies with skin problems. The optimally digestible blend of selected herbs contains vital substances from purely natural sources that are important for skin metabolism and can be fed to provide nutritional support for coat and skin. The contained herbs provide phytonutrients that are often missing in today's feeding. They provide the body with vitamins, minerals, amino acids, and secondary plant metabolism substances, which are readily available and do not further burden the organism and its detoxification organs, which are already strained in these cases. The contained herbs provide phytonutrients that are often missing in today's feeding. They provide the body with vitamins, minerals, amino acids, and secondary plant substances, which are readily available and do not further burden the organism and its detoxification organs, which are already strained in these cases. The specially coordinated herbs support the barrier function of the skin. Dry skin with dandruff, hair loss, and itching is supplied with important vital substances and the body's own immune system is strengthened. The performance and well-being are thus promoted in a natural way.
