Product description

Cleaning agent

Odor absorber, deeply degrades urine and fecal odors

feliTATZ OdorStop effectively neutralizes the odor around your litter box. Every cat owner knows the smell that a used litter box can give off, and no one likes it - not even the cat. **feliTATZ OdorStop** neutralizes this odor effectively thanks to its 2-step effective method and does not try to mask odors with a strong inherent odor, which can put off cats with their sensitive noses.

2-stage action method:
Step 1: Immediate effect through highly effective odor absorbers.
Step 2: Long-term effect through microorganisms that deeply break down disturbing urine and fecal odors.

Versatile application:

- **feliTATZ OdorStop** quickly provides fresh, clean air right after the litter box has been used.
- Sprayed on the litter, it prolongs the usability of cat litter, which often takes on an unpleasant urine odor after some time.
- When changing the litter, the odor of the thoroughly cleaned litter box can be sustainably neutralized with **feliTATZ OdorStop**.
