casaCare Urine Attack 500 ml | 500 ml

Manufacturer	casaCare
Product number	301
Weight	0.5005kg
Length	76mm
Width	76mm
Height	213mm

Product description

Cleaning agent

Odor absorber, deeply degrades urine and fecal odors

casaCare Urine Attack effectively neutralizes unpleasant fecal odors, such as feces and urine, from areas where dogs have marked their territory or defecated. It works reliably on urine and feces odors on soiled textiles, carpets, tiles, wood, in cars, etc. It penetrates into the grout and thoroughly and reliably breaks down urine there without damaging the grout. **casaCare Urine Attack** is versatile in its applications: restrooms, restaurants, airports, schools, sports and recreational facilities, dog parks, exhibition halls, animal markets, cars, homes, nightclubs, dog training schools, pet boarding facilities, and after major events (e.g., areas with feces), etc.

casaCare Urine Attack was developed for use in households with pets and is suitable for both indoor and outdoor use. It can be used both preventatively and as a treatment. **casaCare Urine Attack** neutralizes fecal odors thanks to its two-step action and does not attempt to mask odors with a strong scent of its own.

2-stage action method:
Step 1: Immediate effect through highly effective odor absorbers.
Step 2: Long-term effect through microorganisms that deeply break down disturbing urine and fecal odors.
